

[310a] Try it yourself: Answer

```
using System;
```

```
namespace LWTech.ChipAnderson.HelloWorldApp
```

```
{
```

```
    class Program
```

```
    {
```

```
        static void Main(string[] args)
```

```
        {
```

```
            Console.WriteLine("Please type your name and then press Enter:");
```

```
            string name = Console.ReadLine();
```

```
            Console.WriteLine("Hello {0}!", name);
```

```
            Console.ReadLine();
```

```
        }
```

```
    }
```

```
}
```
